Odůvodnění:	Justification
Byla dána společenská objednávka na legitimitu, kvalitu a dostupnost rozhodovacích procesů v rámci EU a členských zemí EU.	Social demand for legitimacy, quality and availability of decision-making processes within the EU and EU the member been formulated.
Vzhledem ke skutečnosti, že EU vznikla na základě dohod, jejímž základem je mimo jiné integrace, kooperace a to vše transparentně ve prospěch občanů EU a členských států EU, legitimita, kvalita a dostupnost rozhodovacích procesů musí být v souladu mimo jiné i s příslušnými mezinárodními dokumenty, včetně Listiny základních práv EU (Ú.v. EU C 303, 14. 12. 2007, s. 1-16, zde zejména čl. 36 – přístup k službám všeobecného hospodářského zájmu, čl. 38 – ochrana spotřebitele, čl. 41 – právo na řádnou správu věcí veřejných atd....), není možno v rámci EU a členských států EU připustit a tolerovat svévolné, nelegitimní a netransparentní rozhodovací procesy či vytváření podhoubí k těmto.	With regard to the fact, that the EU had come into existence on the basis of agreements which rest, among other things, upon integration and cooperation, and that all dealings must be transparent for the benefit of EU citizens and EU memberesates, the legitimacy, quality and availability of decision-making processes must be in accordance with the respective international documents, including the Chart of Basic Rights of the EU (OJ EU C 303, 14th Dec. 2007, pp. 1-16, here especially Article 36 - Access to services of general economic interest, Article 38 - Consumer protection, Article 41 - Right to proper administration of public affairs, etc...) within the EU and its member states, it is not possible to admit and tolerate arbitrary, unlawful and intransparent decision-making processes or creation breeding ground for such.
Organizace HABEAS CORPUS dostala od mezinárodního kongresu zadání mimo jiné prozkoumat legitimitu, kvalitu, transparentnost a dostupnost kolem rozhodovacích procesů shora uvedených orgánů EU a národních orgánů.	The organisation HABEAS CORPUS was given by the international Congress a commission to survey, among other things, legitimacy, quality, transparency and availability concerning decision-making processes of the above mentioned organs of the EU and national organs.
Ve věci nejsou dány důvody k odepření zpřístupnění podřaditelné pod čl. 4 Nařízení EP a Rady (ES) č. 1049/2001, naopak, jak žadatel popsal ve svém podání shora, chování orgánů a států EU je velmi netransparentní a podezřelé.	In this matter, there are not given any reasons to deny access which could be classified under the Article 4 of the Regulation of European Parliament and the European Council No. 049/2001 - on the contrary, the conduct of the EU organs and states highly intransparent and suspect.
